

# URGENT PRESS ADVISORY

Truth For Health Foundation presents:

## PURGING PATRIOTS from the MILITARY:

## The PROOF

TUCSON, AZ, January 10 – The Biden administration and top military brass are using illegal COVID mandates to severely compromise national defense readiness by illegally forcing the experimental COVID vaccines, purging military members who request medical or religious accommodations, engaging in physical punishment, hazing and shaming of unvaccinated military service members, denying medical treatment to those with COVID, and covering up serious vaccine injuries and deaths, in egregious violations of soldiers' religious and civil rights guaranteed under the US Constitution, Truth for Health Foundation has learned.

*“What the Biden Administration and the Department of Defense are doing to our honorable sons and daughters in the military is unconscionable,”* says Dr. Elizabeth Lee Vliet, President and CEO of Truth for Health Foundation, a non-profit public charity aimed at defending medical truth and individual medical freedom. *“Our service members are being illegally ordered to take an EUA product while being told it is “FDA-approved.” Comirnaty, the only FDA-approved COVID shot **is not available on any U.S. military installation** in the US or overseas, according to military sources. If service members request a religious or medical exemption, they face extra duty, public humiliation, and threats of dishonorable discharge. If they talk about it, they risk career-ending discipline. Some have been arrested for requesting a religious exemption, a Constitutional right all of our military take an oath to defend.”*

In the *Purging Patriots from the Military* press conference, Truth for Health Foundation provides indisputable proof from military whistleblowers and their legal representatives how the US military command uses COVID to violate medical and religious rights; violate standard UCMJ regulations; conduct medical experiments on service members without informed consent. Catastrophic damage from the experimental vaccines and COVID policies has damaged military readiness and poses a serious threat to America's national security.

*Could the current DOD be so sinister as to utilize threat of international violence to absolutely force compliance of vax mandates from all our military personnel?* Find out at our livestreamed event at **12 NOON ET JAN 12** by LifeSiteNews, and multiple other livestream platforms. To participate and join the press conference, email [info@TruthForHealth.org](mailto:info@TruthForHealth.org), or save this link: <https://www.lifesitenews.com/purging-patriots-from-the-military/>

## Truth for Health Foundation Press Conference Jan 12, 2022

Dr. Vliet moderates this Press Conference, which features courageous military men and women across multiple branches and ranks of our armed forces stepping up to defend the US Constitution they took an oath to defend. Military service members provide *proof* of their accusations, with their attorneys --two of whom are retired military JAG attorneys -- citing specific violations of federal law and the military's own UCMJ regulations. International attorney, Todd Callender, Esq. presents the legal case for the suit against the Department of Defense to defend the Constitutional rights of service members to push the experimental vaccines.

Military whistleblowers have documented that the Department of Defense (DOD) is illegally forcing service members to take the Experimental Use Authorized COVID vaccine under career-ending threats and are systematically denying *ALL* religious exemptions. Additionally, whistleblowers have confirmed that military commanders have punished unvaccinated soldiers with extra physical activities, shamed them with humiliating acts, and denied them medical treatment as a matter of "shadow" policy across several military installations in acts of coercion to get troops vaccinated.

Under the US Constitution, citizens have the right to bodily integrity. Every person, including military service members, have the right to refuse an experimental medical treatment. But the DOD is mandating vaccinations under the false pretense that the FDA has approved the COVID vaccine. The only FDA-approved vaccine, *Comirnaty*, is *not available* to be ordered on any military installation. It is illegal for the DOD to mandate an experimental drug, even though this was done in the vaccine mandate. The order was issued by the Secretary of Defense who is not authorized to issue such an order of an EUA vaccine.

Truth for Health Foundation, a 501(c)3 public charity, presents their eighth public press conference doing the watchdog job the mainstream media and our military leaders refuse to do. The Foundation gives our military a platform to expose the corruption of military law and dangers to our national security when the lives of our volunteer service members are in jeopardy with dangerous, politically-driven policies pushed by DoD from the top down.

America's sons and daughters who stepped up to defend our Constitution and our freedom are paying a high price with their own Constitutional rights trampled upon by the very top Command officers who took an Oath to defend our Constitution. If our military service members are being abused to this degree, and forced out of the military for simply requesting religious or medical exemptions to an experimental vaccine, who will stand in the gap and defend ***your rights?***

The stories shared by our courageous military will inspire and encourage us all to stand against tyranny and protect the freedoms endowed by our Creator and enshrined in America's founding documents. Our military members defend us. They deserve our support to defend them now against medical tyranny by their own Command.
